

Port Huron Beautification Commission Tree Celebration Program

Let us plant a tree in memory or recognition of someone!

Preserve the loving memory of a family member or special friend with a gift that will grow with your children and be enjoyed for generations to come.

Through the Tree Celebration Program, citizens can have a tree planted on City property in memory of a loved one or dear friend or to honor or recognize an individual. Several varieties of trees are available, including Flowering Crab, Crimson King and Linden. The trees range in price from \$150 to \$200 depending upon the variety selected.

The Port Huron Beautification Commission coordinates the purchase of the trees and subsequent planting with the City's Parks Department. Before planting, you will be notified so that you and your family can get acquainted with the location of where the tree will be planted.

A small gathering at the Municipal Office Center is held every couple of years to present to the contributor a certificate showing the name of the person being honored or recognized. A permanent plaque recognizing the individual's names hangs in the lobby of the Municipal Office Center for all to see.

To start the Tree Celebration Program process, complete the application below. A Beautification Commission member will then contact you to answer your questions and/or to discuss the details for selecting a suitable tree and choosing a location for the planting. You can also read additional program information on the Beautification Commission's page of the City's website at www.porthuron.org.
